

Profile

As a game programmer with a first-class honors degree in Science, I thrive at the intersection of technology and creativity. My experience as co-founder and programmer at PixelPulse allowed me to blend code with a passion for digital art, from 2D to 3D. I am now eager to step into the wider gaming industry to sharpen my skills, contribute to a major production, and help create immersive, visually striking experiences.

Work Experiences

Co-Founder - Programmer & Digital Asset Creator

PixelPulse (PxP)

September 2022 – Present

- Co-founded a 2-person studio producing tools, shaders, and asset packs for Unity marketplace
- Programmed, organized, validated and published 3D assets optimized for real-time engines
- Managed product pipeline: pricing, product pages, analytics, website and description

Results:

- Released **12** commercial **asset packs in 8 months**
- Generated **1'000+** total **sales** with a **21.98% conversion rate**
- Achieved **+4'400** page **views** with no-paid advertising

Software Engineer Intern

Lab4Tech, Lausanne, Switzerland

June 2025 – September 2025

- Developed a web-based learning tool to modernize training, converting static documents into an interactive quiz format with JSON data serialization.
- Created a C++/Unity native DLL for procedural 2D map generation, significantly accelerating the workflow for senior developers.
- Enhanced the C++ training materials for CPE, CPA, and CPP certifications, contributing to 3 interns passing 6 certifications.
- Mentored a fellow intern in Unity project optimization and best practices.

Results:

- [Quiz Trainer Website] [🔗](#)
- The procedural generation tool was **adopted by senior staff**, improving map creation speed.
- The learning tool directly contributed to **3 interns achieving 2 certifications each**.

Co-Founder - CTO

Styles Studio SàRL, Lausanne, Switzerland

Jan 2022 – Jul 2024

- Co-founded a game development studio, leading all technical operations and strategy as CTO [Styles Studio Website] [🔗](#) .
- Architected and managed the entire IT infrastructure, including servers, databases, logging, and development tools.
- Led the development of an award-winning game (Indie Nation Jury & Public Award), from a one-week prototype to a full Steam release.
- Showcased the game to over 5,000 attendees at major conventions like Fantasy-Basel, Zürich Pop Con, Numerik Games, and Japan Tours Festival.
- Mentored junior developers in Unity and best coding practices, and delivered professional training courses for the Swiss Digital Academy [SDA Website] [🔗](#) .

Results:

- Built a scalable development pipeline and robust IT infrastructure from the ground up.
- Gained significant public traction and positive reviews through direct engagement at **major European pop culture events**.
