WORK EXPERIENCE

Head of Programming

Styles Studio, Lausanne, Switzerland

2022 - Today

Description

- In early 2022, co-founded Styles Studio SàRL to secure various contracts.
- Assumed the role of Head of Programming, overseeing all associated responsibilities.
- Handled server and tool setup, code review, and technical problem resolution.
- Focused on continual improvement of the development pipeline.

Producer

SAE-Institute, Geneva, Switzerland

10/2023 - 10/2024

Description

- Assumed the role of a producer for two specialized projects during my third year at SAE Institute Geneva.
- Managed the entire production cycle, gaining in-depth knowledge of Unreal Engine.
- Organized project schedules, defined key milestones, and ensured adherence to timelines to meet deadlines.
- Facilitated communication and collaboration among game programmers, artists, and audio engineers to maintain a cohesive project vision and ensure successful execution.

Game Programmer

Dama Dama Games, Lausanne, Switzerland

01/2021 - 05/2021

Description

- Began my career in game development in 2021 by co-founding Dama Dama Games, a Swiss indie game studio.
- Applied commercial knowledge and learned game development using Unity.
- Stopped working at Dama Dama Games to start a bachelor's degree at the SAE Institute.

Mecatronics Engineer

MAN Truck & Bus, Bussigny, Switzerland

2020 - 2021

Description

- Transitioned from a receptionist to a Mechatronics engineer at a competing company.
- Applied knowledge efficiently and precisely in the new role.
- Started a Federal Diploma of Higher Education in Mechatronics Engineering simultaneously.
- Took on additional responsibilities by overseeing Mechanics and Mechatronics apprentices.
- Improved communication skills and shared knowledge and passion with aspiring students in the field.

Receptionist

LARAG SA, Echandens, Switzerland

2018 - 2019

Description

- Briefly worked in client reception while finishing training, recognized for communication skills and language proficiency.

- Enhanced social skills and proved to be highly valuable in the role.
- Received positive feedback from superiors, discovering an aptitude for human interaction.

Mecatronics Apprentice

LARAG SA, Echandens, Switzerland

2014 - 2019

Description

- Transitioned to Mechatronics after completing studies and gaining commercial experience.
- Immersed in various disciplines: mechanics, electronics, electricity, physics, and chemistry.
- Learned vehicle maintenance intricacies, from routine tasks to complex engine and system repairs.

Diverse IT & commercial work experiences

Switzerland & England

2008 - 2014

Description

- Explored various work environments during school years, tailored to individual preferences.
- Initially focused on IT, gaining experience in the realm of computers through multiple work placements.
- Eventually transitioned to the commercial sector, engaging in administrative roles in Switzerland and England.
